 Portfolio: mr-mike-site.onrender.com |  GitHub: github.com/MR-MIKE001

Professional Summary

Passionate and results-driven Full-Stack Developer with 5+ years of experience building scalable, user-focused applications for web and mobile. Skilled in React, Next.js, React Native, Node.js, and modern backend technologies, I specialize in delivering clean, high-performance code that solves real business problems.

Proven ability to:

- Reduce app load time by 30%
- Scale platforms to 5,000+ active users
- Boost client sales by 20% through optimized solutions

I bring a strong problem-solving mindset, deep technical expertise, and hands-on experience collaborating with cross-functional teams in Agile/Scrum environments.

Core Skills & Technologies

Frontend: React, Next.js, React Native, HTML, CSS, JavaScript, TypeScript

Backend: Node.js, Express.js, REST APIs, Next.js (Full-stack)

Databases: MongoDB, MySQL

Authentication: JWT, OAuth

Other Tools: Git, Postman, Firebase, Tailwind CSS, Jest (Testing)

UI/UX Tools: Figma, Adobe XD, Sketch

Programming Languages: JavaScript, TypeScript, Python

Selected Projects

-  Real-Time Chat App
 - Built a messaging app with Socket.IO for instant communication and secure sessions.
 - Achieved low-latency messaging and seamless real-time updates.
 - Stack: React, Node.js, Socket.IO, MongoDB
-  Airbnb Clone

- Developed a responsive booking platform with property listings, reservations, and payment flows.
- Designed to replicate the UX of Airbnb for learning and demo purposes.
- Stack: Next.js, Node.js, MongoDB, Tailwind CSS
-  Nike E-Commerce Clone
 - Built an e-commerce platform with shopping cart, user authentication, and payment integration.
 - Reduced load time by 30%, improving user retention.
 - Stack: React, Node.js, Express, MongoDB, JWT
-  Weather App
 - Created a mobile weather dashboard using live APIs and geolocation support.
 - Delivered a clean, intuitive UI for tracking conditions globally.
 - Stack: React Native, REST APIs

 Portfolio & Live Projects: mr-mike-site.onrender.com

Experience

- Freelance Web & Mobile Developer | 2019 – Present
 - Delivered 10+ projects across industries including e-commerce, services, and productivity tools.
 - Worked with international clients, consistently meeting tight deadlines with scalable solutions.
 - Collaborated with designers and product managers in Agile teams to align software with business goals.
 - Optimized backend systems to handle 5,000+ users with strong security and performance.
 - Integrated modern tools (Firebase, Tailwind, Git workflows, testing frameworks) to improve dev processes.

Achievements

- Grew from a self-taught novice to a trusted full-stack professional developer.
- Scaled apps to 1,000+ daily users with stable backend infrastructure.
- Recognized for fast delivery, clean code, and proactive client communication.
- Published technical articles and insights (Facebook page).
